

## RC Laser Winter Handicap Series

Listed below is the plan for six rounds of the RC Laser Winter Handicap Series to be run from June to October 2023. NOTE: Both Saturday & Sundays involved & 1 round is at Wallaroo.

A person will be nominated to run each round (but still sail) to share the load across the whole RCL group.

Each round would usually involve 8 heats, but 1 heat is enough to constitute a round. Each sailor will be able to drop one round over the series. The reserve date will be used if light wind or rain prevent the sailing of one of the six rounds.

There will be no charge for sailing in the series, but each entrant must complete a registration form.
